**BF MIRROR SOFT**

# BF MIRROR SOFT

## PRODUCT DESCRIPTION

The BF MIRROR SOFT SERIES is a special thermo-adhesive film coated with a very glossy polyester sheet (PET), free of PVC, plasticizers or heavy metals, which gives it a shiny finish EVEN AFTER THE APPLICATION thanks to its thinness.

The cutting line is highly visible, and the workability of the product is simple; its polyester adhesive carrier allows for fast weeding and easy repositioning of any small details that might have accidentally lifted from the carrier.

The cutting plotters blade integrity significantly determines the workability of the film.

It is not suitable for multilayer applications.

## APPLICATION INSTRUCTIONS

- Mirror cut BF MIRROR SOFT, with a 45° blade.
- Weed the BF MIRROR SOFT and remove the excess materials.
- Pre-heat your press to 150 ° C.
- Place the garment on the lower platen of your heat press.
- Place your BF MIRROR SOFT design on the garment.
- Press at 150 ° C for 12 seconds.
- Wait 5-7 seconds before peeling the carrier.
